

PROLOGIS SOLARSMART

Sustain, Save, Switch.

Making Solar Simple

INTRODUCTION

More and more of our customers are operating for longer hours with rising concerns about energy and environmental impacts, so having a building which contributes to **environmentally friendly operations** and optimizes the working environment is key.

OPPORTUNITY

That's why, as a Prologis customer, we are offering you the opportunity of Prologis SolarSmart, allowing you to benefit from onsite power which will reduce your carbon footprint.

Below are two examples of how a Prologis customer could benefit from Prologis SolarSmart.

EXAMPLES

Location:
Hamburg, Germany

Power:
Solar system to generate **650MWh** per year

Savings:
Delivering **293t** in annual CO₂ savings

Location:
US and Mexico

Power:
2.5million sq ft (232,000 sqm) of solar roofspace across 7 sites totalling **8MWS** of solar.

Savings:
100% green warehouses and improved environmental impact globally due to reduction in CO₂ emissions

SUSTAIN

Access to reliable on-site renewable energy, combined with grid power, allows you to benefit from sustainable low carbon energy which is good for the environment and helps you achieve your ESG low carbon goals.

SAVE

Save on CO₂ emissions and implement on-site generated solar energy with no extra costs or commitments beyond your lease term and only pay for the energy you use.

SWITCH

Switching to a more green and sustainable energy solution is **simple and easy**. Our experienced team will take care of everything, minimising any disruption to your business with NO UPFRONT COSTS. We will build and maintain the system, so you can focus on what your company does best.

212 megawatts of generating capacity in nine countries via 108 customers with solar panels installed at their Prologis buildings.

IF YOU WANT TO DRIVE-DOWN ENERGY COSTS, IMPROVE SAFETY AND EFFICIENCY AND CREATE A MORE PLEASANT WORKING ENVIRONMENT FOR YOUR EMPLOYEES, THEN PLEASE GET IN TOUCH WITH YOUR PROLOGIS CONTACT PERSON.
